## Call for Papers

### Special Issue for ALOS-2, Journal of the Remote Sensing Society of Japan

---

Since the Advanced Land Observing Satellite-2 (ALOS-2) was launched on May 2014, it is being operated very well and acquiring a large amount of observation data.

On this occasion, the Remote Sensing Society of Japan (RSSJ) plan to publish a special issue for ALOS-2 to provide latest information related to ALOS-2 and to share results of researches and applications using actual ALOS-2 data. We welcome submission from various research fields.

#### Call for Papers

- Volume and Number      Volume 36 No. 4 (will be published on September 2016)
- Categories of Papers      Full Paper, Short Paper, Review and Engineering Report
- Theme of Papers      Scientific or application research results as well as application examples using ALOS-2 data from various research fields.
- Submission Deadline      March 25, 2016
- Review Process      Submitted papers will be peer-reviewed and refereed as a usual paper.
- Instruction for Authors      The Instruction for Authors can be found on the website <http://www.rssj.or.jp/gakkaisi/journal.html> .  
Basically, the first author of submitted paper should be a member of RSSJ. However, non-member's submission is acceptable with a given page charge. Submitted paper should be written in English or Japanese.
- Notice      Please note that accepted paper may be published in Vol.36 No.5 or later depending on the progress of peer-reviewing.
- Contact for This Special Issue  
Takeo Tadono, Dr.
