Message from the Guest Editors

Dear Colleagues,

The International Symposium on Remote Sensing 2021 (ISRS 2021, <http://isrs.or.kr/>) will be a fully virtual meeting to provide all members of our community with the opportunity to participate in the annual ISRS event. This is the premier symposium that provides all participants with invaluable opportunities for catching up on state-of-the-art techniques and the latest developments in remote sensing but also serves for sharing new ideas and information with colleagues and young scholars engaged in similar studies, research or activity. This Special Issue in *Remote Sensing* is planned in conjunction with ISRS 2021 and will include peer-reviewed feature papers presented at ISRS 2021. In the cover letter, authors should provide the corresponding paper number of ISRS 2021. If this information is not provided, the paper will not be considered as a Special Issue paper.
